LEVEL**

THINK ABOUT THIS

Amtech has made it our business to understand your business. With 10 years' experience building highly effective partnerships with the medical and dental professions we know your industry because it's our industry too.

Working closely with you has given Amtech insights not just into the business but more importantly into the way you work on a daily basis. By understanding these factors, and then looking at how we can help you, we have been able to apply some creative thinking to our customer service. Amtech believes we have an obligation to keep the process as simple and rewarding as we can, so that you can spend more time helping the people in your care.

We also know change is constant. We endeavour to look for innovative ways to provide you with the best products on the market, in value and range. This is our company goal and our promise to you.

 ***We feel that the team at Amtech treat us like valued clients and they continually look for innovative ways to help us with our business*** 

Helping you help others by understanding your needs

UNDERSTANDING INNOVATING DELIVERING

To be progressive in the field of healthcare, an organisation needs to be able to focus on the care it provides. Spending more time with clients means better outcomes of care. At Amtech we are always improving the service we offer, looking for the next best ways we can help you.

We have recently introduced an app 'Rappid' for tablets and smartphones that simplifies the process of ordering from us. This app is easy to use, making ordering from us efficient, and less time consuming by offering features such as alternative product suggestions and the ability to view historical orders.

It's not just in information technology that Amtech have made changes. We also have a purpose built clean room production facility, enabling us to manufacture single use sterile medical instruments in-house. This means we have exceptional quality control and flexibility of supply. As the only facility of its kind in New Zealand, it is proving to be the preferred option for many of our customers that were using similar products manufactured overseas. Understanding and identifying the needs of the industry was our starting point. Using creative and innovative thinking to we want to achieve the most important step in the process – delivering solutions to meet your requirements.

 *Amtech have made everything simpler for us. I find them quick and easy to deal with* 

Bringing you the best in product, value and service

A269	Betadine Antiseptic Ointment 25g	Each
A270	Betadine Antiseptic Ointment 65g	Each
TP103	Betadine Alcoholic Skin Prep Povidone Iodine 10% in 30% Alcohol 500ml	Each
A114	Betadine Antiseptic Solution 100ml	Each

DETTOL ANTISEPTIC

This widely popular antiseptic helps protect against infection from cuts, scratches and insect bites. Contains chloroxylenol.

Can be used for general household and workplace applications.

Code	Description	Qty
A320	Dettol Antiseptic Solution 500ml	Each
A321	Dettol Antiseptic Solution 250ml	Each
A322	Dettol Antiseptic Classic Solution 125ml	Each
A323	Dettol Antiseptic Cream 30g	Each
A324	Dettol Anti-Bacterial Soap Pump Pack 250ml	Each

BEPANTHEN ANTISEPTIC CREAM

Bepanthen is an antiseptic cream that helps protect damaged skin from infection and is also effective for the treatment of cuts, abrasions, scalds, insect bites and stings, chapped hands, minor skin irritations and sunburn.

Code	Description	Qty
A342	Bepanthen Cream 100g	Each

BONJELA

Relieves teething pain for infants.

- Easy to apply
- Pleasant tasting.

Code	Description	Qty
TP122	Bonjela Teething Gel 15g	Each

SAVLON ANTISEPTIC

This powerful germ killer does just that. Great overall antiseptic provides excellent protection. Available in two sizes.

Contains chlorhexidine gluconate, cetrimide and isopropyl alcohol. A very good household and workplace antiseptic.

Code	Description	Qty
A330	Savlon Antiseptic Cream 30g	Each
A331	Savlon Antiseptic Cream 75g	Each

PLATINUM REUSEABLE HOT/COLD PACKS

Quality hot / cold pack for helping sore muscles and relieving pain. Able to be cooled in fridge / freezer or heated in a microwave.

Code	Description	Qty
TP470	Platinum Reusable Hot & Cold Pack	Each

PLATINUM INSTANT ICE PACKS

For instantaneous ice cold treatment for assisting in injuries associated with falls, sprains, sporting etc. Simply squeeze the internal pod to activate ice crystals.

Code	Description	Qty
M130	Platinum Instant Ice Pack Disposable	Each

COOL RELIEF TREATMENT SATCHELS

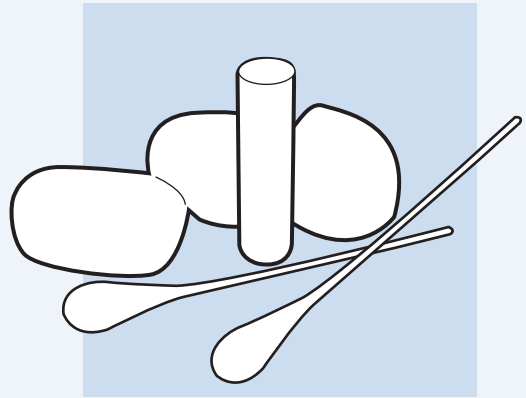

Cool Relief uses the natural therapeutic power of heat and cold in a safe and practical way. Thanks to its extra-comfortable sleeve, Cool Relief can be applied easily to any part of the body.

Code	Description	Qty
TP472	Cool Relief Treatment Satchels	Pack 6

COTTON CONSUMABLES

Cotton Products

DENTAL COTTON ROLLS

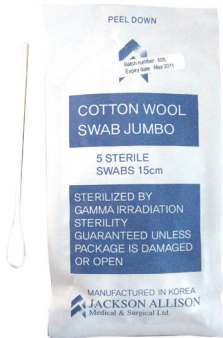

These rolls are pure white cotton and highly absorbent. They have great flexibility, conform easily but also maintain shape when they get wet.

Code	Item	Qty
DN126	Dental Cotton Rolls 0.8cm x 3.8cm	Box 2000
DN127	Dental Cotton Rolls 1cm x 3.8cm	Box 2000

FLUIDS

Irrigation
Injection

SODIUM CHLORIDE INJECTION 0.9% AMPOULES

Sterile water for injections is used for preparation of a medicine intended for injection or infusion by slow drip into a vein. It is only to be used for this purpose and should not be injected without the inclusion of medicine. Sodium Chloride Injection 0.9% is a sterile isotonic solution of sodium chloride in water for injections, pH 4.5-7.0, containing no preservatives (normal saline). Used as the vehicle for many parenteral drugs and as an electrolyte replenisher for maintenance or replacement of deficits of extracellular fluid. It can also be used as a sterile irrigation medium.

TEGADERM IV TRANSPARENT DRESSING

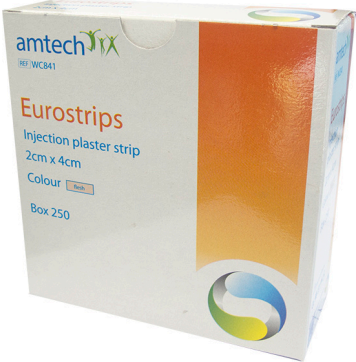

All in one sterile dressing reduces application time. A bacterial and viral barrier helps prevent external bacteria and contaminants from entering the site. A waterproof barrier patient may bathe or shower without removing dressing. Conforms to body contours, providing comfort, and the non-adherent absorbent pad and breathable film allows skin to function normally with good exchange of moisture vapour and oxygen. Provides moist wound environment to enhance healing and lessen pain. Laboratory testing has proven 3M Tegaderm and Tegaderm HP Transparent Dressings provide a viral (HIV-1 and HBV) barrier while dressings remain intact without leakage. Dimensions of dressing listed includes hydrocolloid and film backing.

VIRKON DISINFECTANT POWDER

- Reliable broad spectrum high level disinfectant which combines effectiveness with ease of use.
- Extremely easy to use. Ideal for maintaining a hygienic environment to reduce the transmission of pathogenic microorganisms.
- Unique formulation that combines cleaning and disinfection in one action. Active solution is produced by dissolving tablets or powder in water. Virkon has an in-built dye indicator of activity which helps users monitor the use-life up to 5 days after activation.
- Effective under dirty conditions allowing one-step cleaning and disinfection.
- Virkon powder can be applied directly to body fluid spills, including urine, for rapid disinfection prior to disposal.
- Low toxicity, does not cause sensitisation and is biodegradable.
- Rapidly effective in killing 99.999% of micro-organisms in less than 10 minutes, even in the presence of organic matter.

IMPREGNATED SURGICAL SCRUB
BRUSH WITH NAIL CLEANER

For over three decades, the BD E-Z Scrub brand has been considered the “gold standard” in single-use disposable scrubs. BD E-Z Scrub products offer a wide range of efficacious antimicrobial formulations specifically designed to enhance performance while reducing irritation to the skin. Proprietary polyethylene soft bristles enhance mechanical action while reducing skin irritation. Soft sponge provides gentle cleaning on irritated areas or when firm mechanical action is not required. Ergonomic brush design allows greater user comfort and effectiveness, ultimately improving compliance.

Saliva Ejectors
Disposable Trays
Adaptors

SALIVA EJECTORS CLEAR WITH STANDARD BLUE TIP

Each tip is pliable and shape-maintaining and they fit all standard saliva ejector hose ends. They provide optimal suction without aspirating tissue. The soft, non-removable tip bonded to the tube minimizes tissue impingement and offers maximum patient safety.

Code	Description	Qty
DN119	Saliva Ejectors Clear with Standard Blue Tip	Pack 100

SALIVA EJECTORS MULTICOLOURED WITH CLEAR TIP

Each tip is pliable and shape-maintaining and they fit all standard saliva ejector hose ends. They provide optimal suction without aspirating tissue. The soft, non-removable tip bonded to the tube minimizes tissue impingement and offers maximum patient safety.

Code	Description	Qty
DN120	Saliva Ejectors Multicoloured with Clear Tip	Pack 100

CURLY SALIVA EJECTORS WHITE CHROMIUM COATED METAL

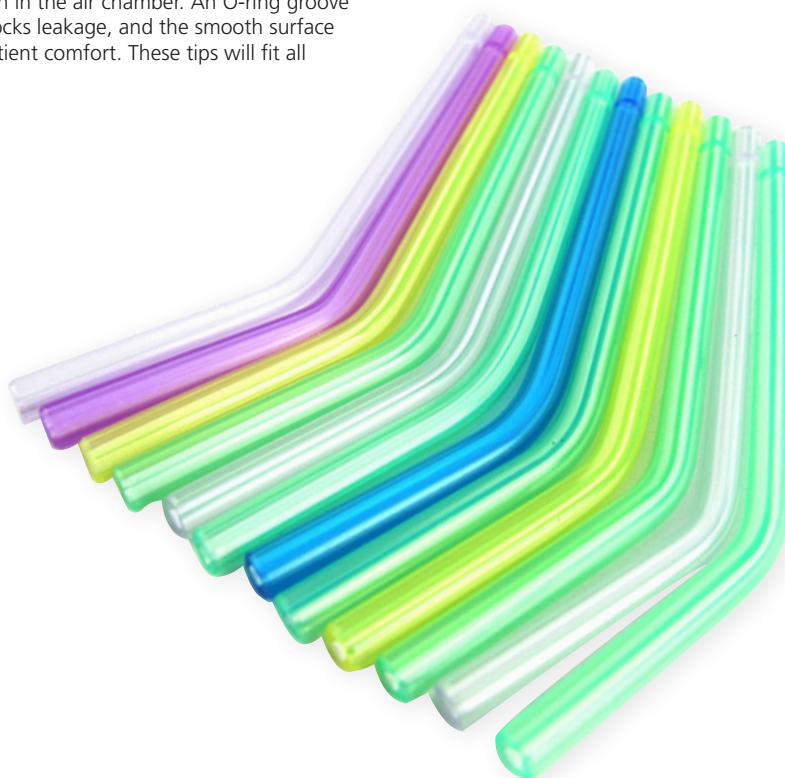

These are made of white coated metal, form very easy, and stay in memory shape for duration of treatment.

Code	Description	Qty
DN123	Curly Saliva Ejectors White Chromium Coated Metal	Pack 100

AIR / WATER SYRINGE TIPS WHITE TUBE ASSORTED COLOURS

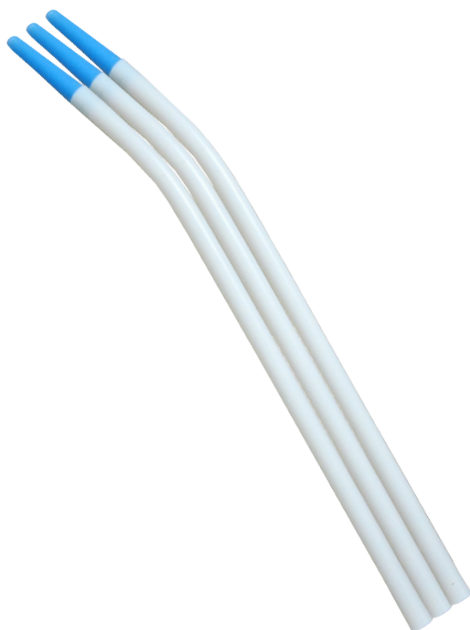

These disposable air / water three-way syringe tips are a great alternative to metal tips that need to be autoclaved. The inner core water chamber is embedded into the syringe which helps to eliminate water contamination in the air chamber. An O-ring groove ensures patient safety and blocks leakage, and the smooth surface and beveled ends increase patient comfort. These tips will fit all standard A / W syringes.

Code	Description	Qty
DN124	Air / Water Syringe Tips White Tube Assorted Colours	Pack 250

DISPOSABLE STERILE ASPIRATION TIPS

Sterile Aspirator tips are designed for use in general oral surgery. The tip has a diameter of 2.5mm. These can be used with microscopes and loupes, without blocking the field of vision.

Code	Description	Qty
DN131	Disposable Sterile Aspiration Tips	Box 20

DISPOSABLE MICRO APPLICATORS

These micro applicators are for application of bonding agents, etchants, hemostatic solutions, cavity liners and disclosing solutions. Applicators have bendable neck stays. These facilitate the placement of materials into difficult to reach areas. Non-absorbent, non-linting fibers suspend solutions as small as 1/8 of a drop without dripping or spilling.

Code	Description	Qty
DN267	Disposable Micro Applicators	Box 400

CHILD AND ADULT ASPIRATOR TIPS

In a convenient bag of 50, these aspirator tips are good value and well formed for the NZ dental market. We have received great feedback on this well made product.

Code	Description	Qty
DN160	Child Aspirator Tips	Pack 50
DN161	Adult Aspirator Tips	Pack 50

PLASTIC DAPPENS POT ASSORTED COLOURS

A well priced box of 100 pots, these well manufactured pots give great stability with a variety of colours to enhance your practise.

Code	Description	Qty
DN125	Plastic Dappens Pot Assorted Colours	Pack 100

GLASS DAPPENS POT ASSORTED COLOURS

These Glass Dappens pots come in a box of 12 pieces. Reuseable and well priced units, these units give good stability with a strong base for your clinic use.

Code	Description	Qty

MIND THE GAP!

Anyone who has used the London underground will be familiar with the warning: 'Mind the gap', warning passengers about the gap between the platform and train. 'Mind the gap' has now become a Curaprox key message and here's why.

There are three types of gaps that are a real danger to oral health:

- Anatomical gaps: the gap between tooth and gum (sulcus) as well as the gap between the teeth.
- Then, there are the gaps in our knowledge on the causes of diseases such as gingivitis, periodontitis and peri-implantitis and the gaps on the actual consequences of these diseases and what they can lead to.
- Finally, there are the gaps in ability where prevention, motivation and care are concerned.

A large number of people brush their teeth diligently every day and some even three times a day, but caries, gingivitis and periodontitis often still occur. Anyone over the age of 50 most likely has a crown or one, two or even three implants and an increased risk of having a heart attack.

These gaps need filling and not just with any old filling material. They need the correct knowledge and the correct skills and this is where Curaprox can help.

CURASEPT ADS 205 MOUTHWASH 0.05% CHLORHEXIDINE

Thanks to 0.05% chlorhexidine-digluconate and 0.05% sodium fluoride, it is ideal for continuous use, e.g. with braces and orthodontic devices. Extremely high degree of compliance thanks to the Anti Discoloration System (ADS).

Code	Description	Qty
DN240	Curasept ADS Mouthwash 0.05% Chlorhexidine	200ml

CURASEPT ADS 212 MOUTHWASH 0.12% CHLORHEXIDINE

Great for all patients prone to gingivitis and periodontal disease. Perfectly suited for use by people with orthodontic devices, implants and gum problems thanks to 0.12% chlorhexidine-digluconate. Can be used for more than two months, also as preparation for chemo and radiation therapy. Extremely high degree of compliance thanks to the Anti Discoloration System.

Code	Description	Qty
DN241	Curasept ADS Mouthwash 0.12% Chlorhexidine	200ml

CURASEPT ADS 220 MOUTHWASH 0.2% CHLORHEXIDINE

Ideal for intensive application before and after operations in the mouth thanks to 0.2% chlorhexidine-digluconate. Extremely high degree of compliance thanks to the Anti Discoloration System.

Code	Description	Qty
DN242	Curasept ADS Mouthwash 0.20% Chlorhexidine	200ml

CURASEPT ADS 5020 5L 0.2% CHLORHEXIDINE PROFESSIONAL

Ideal for intensive use before and after operations. In the dental practice, patients are given what they will later be using at home. Exceptionally high compliance thanks to the Anti Discoloration System. Each 5 litre canister comes supplied with a pump.

Contains 0.2% Chlorhexidine.

Code	Description	Qty
DN246	Curasept ADS Mouthwash 0.2% Chlorhexidine	Each

**CURASEPT ENZYCAL
TOOTHPASTE 75ML**

Very mild tasting anti-carries toothpaste for everyday use with slightly reduced proportion of sodium fluoride. For the whole family; aged 6 and older; only use a pea-sized amount for younger children. Its mild SLS-free formula and lack of strong essential oils significantly reduces mouth ulcers. Enzycal contains three important enzymes to boost the body's own antibacterial saliva system for noticeably less plaque and less tartar. Ideal for use with sonic toothbrushes.

Code	Description	Qty
DN214	Curaprox Enzycal Toothpaste	75ml

**CURASEPT ADS TOOTHPASTE 0.12%
CHLORHEXIDINE**

Full chlorhexidine effect, minimum side-effects, maximum compliance. Contains 0.12 % chlorhexidine digluconate. Recommended in conjunction with CHX oral rinse Curasept Anti Discoloration System after operations.

Code	Description	Qty
DN244	Curasept ADS Toothpaste 0.12% Chlorhexidine	Each

**CURASEPT ADS TOOTHPASTE 0.05%
CHLORHEXIDINE**

Full chlorhexidine effect, minimum side-effects, maximum compliance. Recommended for daily use. Contains 0.05% chlorhexidine digluconate and 0.05% sodium fluoride. Ideal when used in conjunction with CHX oral rinse Curasept Anti Discoloration System when caries protection is required, e.g. for people with impaired motor-skills.

Code	Description	Qty
DN243	Curasept ADS Toothpaste 0.05% Chlorhexidine	Each

CURASEPT ADS GUM GEL

For thorough daily care under dentures as well as weekly care with implants, periodontitis and fixed tooth replacements. The targeted application of 0.5% CHX digluconate gel makes using a surgical mega soft toothbrush or interdental brush easier. Alternatively, simply massage in with a finger. Extremely high degree of compliance thanks to the Anti Discoloration System.

Code	Description	Qty
DN245	Curasept ADS Gum Gel 30ml	Each

CURAPROX BLACK IS WHITE WHITENING TOOTHPASTE

Black Is White toothpaste contains activated carbon. It removes discolouration without bleaching or grinding the enamel away. Instead, the activated carbon absorbs precisely those particles that cause discoloration, especially tea, coffee, nicotine and red wine.

Black Is White actually creates a thin film over the tooth. As a result, it protects the enamel and even fills in small holes. This whitening toothpaste is exactly the opposite of other whitening toothpastes: in fact, it's quite helpful. In addition, Black Is White is slightly cooling with a refreshingly lemony taste; and a physical blue filter makes the teeth appear even whiter.

Includes the Black Is White version of the CS 5460 ultra soft toothbrush.

Code	Description	Qty
DN294	Curaprox Black Is White Whitening Toothpaste	Each

CURAPROX WHITE IS BLACK WHITENING TOOTHPASTE

White Is Black toothpaste contains activated carbon. It removes discolouration without bleaching or grinding the enamel away. Instead, the activated carbon absorbs precisely those particles that cause discoloration, especially tea, coffee, nicotine and red wine.

White is Black actually creates a thin film over the tooth. As a result, it protects the enamel and even fills in small holes. This whitening toothpaste is exactly the opposite of other whitening toothpastes: in fact, it's quite helpful. Extra mild taste.

Includes the White is Black version of the CS 5460 ultra soft toothbrush.

Code	Description	Qty

CURAPROX 5460 TOOTHBRUSH
SINGLE PACK

Gums love this toothbrush. The 5,460 filaments are ultra soft, forming a dense and efficient cleaning surface. Incredibly gentle on gums and teeth but extremely hard on plaque. Anyone who tries this toothbrush will never want to brush without it again.

- Gently cleans without damaging
- Efficient cleaning surface
- Slightly angled, compact head reaches everywhere
- Octagonal handle helps users to brush at correct angle.

Each of the 5,460 filaments is 0.1mm in diameter

Code	Description	Qty

DN204	Curaprox 5460 Toothbrush Single Cellophane Pack	Each

CURAPROX CS SMART TOOTHBRUSH
SINGLE PACK

Designed for children aged 5 and older. The extra small brush head reaches and cleans everywhere, letting children happily brush their teeth. Its octagonal handle ensures the correct cleaning angle of 45 degrees. The brush head has an incredible 7,600 filaments, over two thousand more than the adult toothbrush. They are also finer with a filament diameter of 0.08mm. Incredibly gentle on the sulcus and soft on teeth and gums.

Code	Description	Qty
DN208	Curaprox CS Smart Toothbrush Single Pack	Each
DN209	Curaprox CS Smart Toothbrush Single Cellophane Pack	Each

CURAKID 4260 TOOTHBRUSH
SINGLE PACK

At last, babies can actually enjoy having their teeth cleaned. The filaments are so gentle that there is no risk of injuring delicate oral mucosa.

- Cleans thoroughly and pain-free
- Filaments 0.1mm in diameter
- No danger of injury thanks to its small, rubberised brush head
- A perfect fit for the hands of both children and adults
- Fantastic colour combinations.

Code	Description	Qty
DN207	Curakid 4260 Toothbrush Single Pack	Each

CURAPROX CPS INTERDENTAL BRUSHES WITH MINI CLICK HOLDER

Prime interdental brush pack of five with mini click holder.

These interdental brushes have a unique bristle diameter that makes cleaning very safe and effective after interventions. The bristles are exceptionally soft and rounded. Also recommended for the areas beneath implant bars. Wire is plastic coated to protect the delicate titanium surfaces of implants. Design of the fine wire core prevents premature breakage and extends service life. Implant brushes fit all holders.

These are the finest little brushes on the market – for the particularly easy and effective prevention of caries in the side teeth, gingivitis and periodontitis. The quality of a CPS prime brush makes a single cleaning movement sufficient: in and out just once, and you're done.

Code	Description	Qty
DN220	Curaprox CPS 06 .6mm Interdental Brush Turquoise with Mini Click Holder	Pack 5
DN221	Curaprox CPS 07 .7mm Interdental Brush Red with Mini Click Holder	Pack 5

RES260	Besmed Oxygen Mask Child	Each

BESMED JET AEROSOL NEBULISER MASK

High Quality Besmed product, with the following features:

- Clear for visual assessment
- Extra comfort for patient - better fit
- Adjustable nasal clip assures comfortable fit
- Equipped with a 6cc / 8cc nebuliser
- Available in three sizes of adult, child and infant
- 100% medical grade PVC material.

Code	Description	Qty
RES373	Besmed Jet Adult Aerosol Nebuliser Mask	Each
RES401	Besmed Jet Child Aerosol Nebuliser Mask	Each

BESMED JET MASK NEBULISER AND TUBING

Besmed Jet Adult Mask Nebuliser and Tubing made of soft feeling PVC for extra comfort.

- Clear for visual assessment
- Extra comfort for patient - better fit
- Adjustable nasal clip assures comfortable fit
- Equipped with a 6cc / 8cc nebuliser
- Available in three sizes of adult, child and infant
- 100% medical grade PVC material.

Code	Description	Qty
RES399	Besmed Jet Adult Mask Nebuliser and Tubing	Each
RES400	Besmed Jet Child Mask Nebuliser and Tubing	Each

BESMED DISPOSABLE MASK

Quality reusable silicon masks.

Code	Description	Qty
RES383	Besmed Disposable Mask Infant (Size 0)	Each
RES384	Besmed Disposable Mask Large Infant (Size 1)	Each
RES385	Besmed Disposable Mask Child (Size 2)	Each
RES386	Besmed Disposable Mask Large Child (Size 3)	Each
RES387	Besmed Disposable Mask Adult (Size 4)	Each
RES388	Besmed Disposable Mask Large Adult (Size 5)	Each

BESMED RESUSCITATOR
CARRY CASE SETS

These single use disposable manual resuscitators are a durable high quality PVC material designed for quality emergency performance at an economical cost compared to reusable type. High quality PVC materials ensures product is always ready when required over a long period of time.

Code	Description	Qty
RES200	Besmed Reuseable Adult Resuscitator Carry Case	Each
RES330	Besmed Disposable Adult Resuscitator Carry Case	Each

BESMED RESUSCITATOR BAG SETS

These single use disposable manual resuscitators are a durable high quality PVC material designed for quality emergency performance at an economical cost compared to reusable type. High quality PVC materials ensures product is always ready when required over a long period of time.

Code	Description	Qty
RES115	Besmed Disposable Adult Resuscitator Bag	Each
RES120	Besmed Disposable Child Resuscitator Bag	Each
RES125	Besmed Disposable Infant Resuscitator Bag	Each

LARYNGEAL AIRWAYS

These silicon single use laryngeal airway masks are state of the art devices made even more desirable by offering outstanding performance without comprising product quality.

- Universal 15mm connector (ISO)
- See-through airway tube is flexible yet absent of any kinking, clear guideline for easy insertion
- Seamless cuff formation offers maximum comfort
- Strengthened oval tip prevent possible bending during insertion
- Thin walled pilot balloon facilitates the sensing of the bulge on inflation.

Code	Description	Qty
RES101	Laryngeal Airway Mask Single Use Silicon Size 1 (Neonates / Infants up to 5kg)	Each
RES102	Besmed Laryngeal Airway Mask Single Use Silicon Size 1.5 Child 5 - 10kg	Each
RES426	Besmed Laryngeal Airway Mask Single Use Silicon Size 2.0 Child 10 - 20kg	Each
RES427	Laryngeal Airway Mask Single Use Silicon Size 2.5 Child 20 - 30kg	Each
RES428	Besmed Laryngeal Airway Mask Single Use Silicon Size 3.0 Child 30 - 50kg	Each
RES374	Besmed Laryngeal Airway Mask Single Use Silicon Size 4.0 Small / Normal Adult	Each
RES429	Laryngeal Airway Mask Single Use Silicon Size 5.0 Normal / Large Adult	Each
RES451	Single Use Silicone Laryngeal Airway Mask Size 6	Each

GUEDEL AIRWAYS

Code	Description	Qty
RES307	Guedel Airway Size 000 40mm Clear	Each
RES305	Guedel Airway Size 0 60mm Black	Each
RES304	Guedel Airway Size 1 70mm White	Each
RES303	Guedel Airway Size 2 80mm Green	Each
RES302	Besmed Guedel Airway Size 9 90mm Yellow	Each
RES301	Besmed Guedel Airway Size 10 100mm Red	Each
RES300	Besmed Guedel Airway Size 11 110mm Orange	Each

NEBULISER BOWL FOR AEROSOL MASK 6CC

- Clear for visual assessment
- Extra comfort for patient - better fit
- Adjustable nasal clip assures comfortable fit
- Equipped with a 6cc / 8cc nebuliser
- Available in three sizes of adult, child and infant
- 100% medical grade PVC material.

Code	Description	Qty
RES402	Nebuliser Bowl for Aerosol Mask 6cc	Each

BESMED JET NEBULISER BOWL FOR AEROSOL MASK 6CC

Code	Description	Qty
RES311	Besmed Jet Nebuliser Bowl for Aerosol Mask	Each

HUDSON MICROMIST NEBULISER WITH TEE AND MOUTHPIECE

Code	Description	Qty
RES329	Hudson Micromist Nebuliser with Tee and Mouthpiece	Each

CAPNO PORT ANTIMICROBIAL DISPOSABLE FILTER

High efficiency mechanical filter provides excellent anti-microbial protection.

Code	Description	Qty
DI848	Covidien / Tyco Barrierbac 'S' / CAPNO Port Antimicrobial Disposable Filter	Each

NEBULISER MOUTHPIECE

- Clear for visual assessment
- Extra comfort for patient - better fit
- Adjustable nasal clip assures comfortable fit
- Equipped with a 6cc / 8cc nebuliser
- Available in three sizes of adult, child and infant
- 100% medical grade PVC material.

Code	Description	Qty
DI128	Nebuliser Mouthpiece	Each

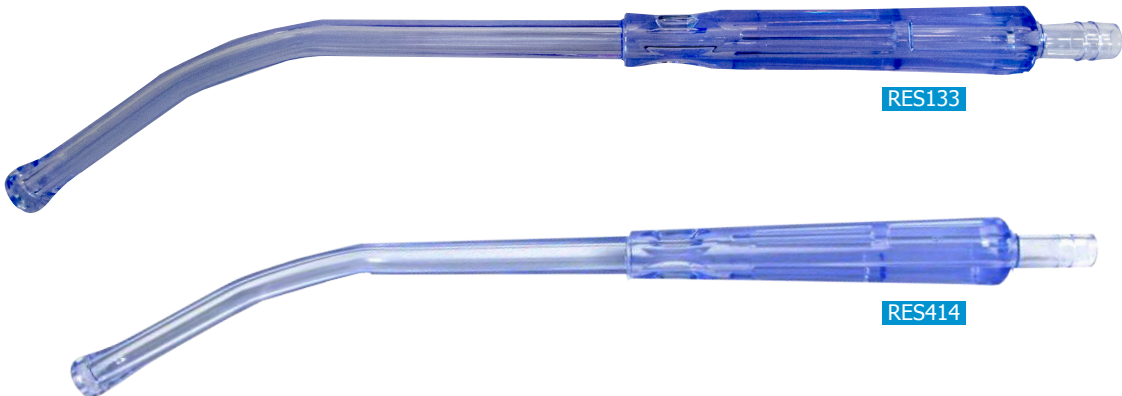

DISPOSABLE MOUTH PIECE

- Clear for visual assessment
- Extra comfort for patient - better fit
- Adjustable nasal clip assures comfortable fit
- Equipped with a 6cc / 8cc nebuliser
- Available in three sizes of adult, child and infant
- 100% medical grade PVC material.

Code	Description	Qty
RES381	Disposable Mouth Piece	Each

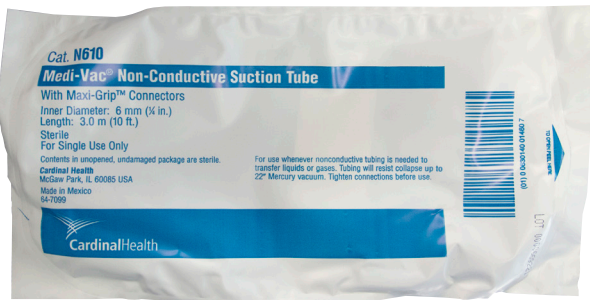

YANKAUER SUCTION HANDLES

Code	Description	Qty
RES414	Yankauer Suction Handle with Tapered Bulbous Tip Sterile	Each
RES133	Yankauer Disposable Suction Handle	Each

MEDIVAC SUCTION TUBING
STERILE WITH CONNECTORS

Single use, sterile. Maxi-Grip connectors. Rigid Male connectors.

Code	Description	Qty
RES194	Medi-Vac Suction Tubing Sterile with Connectors 6mm x 3m	Each

UNOMEDICAL INDOPLAS STANDARD
SUCTION TUBING (TUBE CONNECTING)

Standard Sterile Tubing is a single-use soft, flexible, transparent plastic tubing that is highly resistant to coiling and kinking. Ridges on the outer surface reduce friction at contact and cross-over points, and multi-purpose white connectors (Sterile) on both ends fit all known suction outlets and devices.

Code	Description	Qty
FAH611	Unomedical Indoplas Standard Suction Tubing (Tube Connecting) 25fg x 3m Sterile	Each

TERUMO DENTAL NEEDLES

The Terumo Thin Wall needles allow you to choose a smaller, more comfortable gauge size with increased flow rates. Additionally, injection fluids with a high viscosity can be injected more smoothly than with standard needles.

Needles are individually packed in a sterile, colour coded blister package with clear indication of the expiry date. Allows for easy gauge identification and rapid observation of flashback. The moulded, rigid needle protector ensures the integrity of the needle until the moment of use.

The Terumo Dental Needles have the ultra-sharp bevel design with triple faceting, which minimises patient trauma. The high tensile cannula is difficult to break, even when the patient makes a sudden move. The dental needles are available in short and long sizes and with imperial and metric thread. The needles are suitable for both conduction anaesthesia and infiltration anaesthesia.

Code	Description	Qty
SH451	Terumo Dental Needle 30G x 1 5/8" 42mm	Box 100
SH176	Terumo Dental Needle 27G x 7/8" 22mm	Box 100

BD NEEDLE BLUNT DRAWING UP

Blunt fill needles are used for draw-up of medication, re-constitution of medication and accessing IV bags. Used to replace standard hypodermic needles and reduce the risk of needle stick injuries.

Code	Description	Qty
SH375	BD Needle Blunt Drawing Up 18G x 1 1/2"	Box 100
SH391	BD Blunt Fill Needle with Bevel 18G x 1 1/2"	Box 100

BD MICROFINE PEN NEEDLES

BD Micro-Fine+ Pen Needles now incorporate thin wall technology. The result is an improved pen needle that retains the extremely fine dimensions of a 31G needle but with a wider, increased inner bore dimension. The resulting benefits are faster and easier insulin injections.

Code	Description	Qty
SH388	BD Microfine Pen Needle 31G x 5mm	Box 100
SH387	BD Microfine Pen Needle 31G x 8mm	Box 100

BD PRECISION GLIDE NEEDLES

BD PrecisionGlide Needles are available in a wide range of gauges, lengths, and bevel designs. The large inner diameter of thin wall needles is designed to allow the use of a smaller gauge size with increased flow rates over regular walled needles. Thin wall needles are also designed to facilitate the injection of high-viscosity fluids.

Code	Description	Qty
SH304	BD Blunt 5 Micron Filter Needles 18G x 1.5"	Each
SH246	BD Hypo Needle 18G x 1.5"	Box 100

SH162	Terumo Syringe Leur Lock 50-60ml	Box 20

MONOJECT SYRINGE CURVED TIP IRRIGATION

Monoject curved tip syringes have a 12ml capacity, is ungraduated, and is non-sterile. Ideal for pressure irrigation.

Code	Description	Qty
SH166	Monoject Syringe Curved Tip Irrigation	Box 50

BD ULTRA FINE II SYRINGES

BD Ultra Fine Insulin Syringes are designed for safety and comfort. They are engineered with optimal point geometry and are coated with special micro bonded lubrication for a smoother entry.

Manufactured with a special surgical grade of stainless steel. Subject to 100% needle point inspection to assure consistent high quality. Non-toxic, non-pyrogenic and do not contain latex.

Code	Description	Qty
SH250	Syringe and Needle Set 3ml with 21G x 1.5"	Box 100
SH168	Syringe and Needle Set 3ml 23G x 1.25"	Box 100
SH211	Syringe and Needle Set 1ml with 25G x 5/8" Needle	Box 100

HYPO SYRINGE INSULIN WITH NEEDLE BD ULTRAFINE II

0.5ml syringe with 29G needle. Syringes for doses of 50 units of insulin or less. Use with U-100 insulin only.

Code	Description	Qty
SH280	Hypo Syringe Insulin 0.3ml with 31G 8mm Needle BD Ultrafine II	Box 100
SH329	Hypo Syringe Insulin 0.5ml with 31G 8mm Needle BD Ultrafine II	Box 100

BD POSIFLUSH PREFILLED SYRINGE BOX

With BD Pre-Filled Saline Syringes, you get safe, reliable, cost effective alternatives to vial-based flushing systems, plus BD offers the only pre-filled flush syringes specifically designed to reduce blood reflux that may be introduced by the plunger rod of standard syringes.

Code	Description	Qty
SH263	BD PosiFlush 10ml Prefilled Syringe	Box 30
SH271	BD PosiFlush 5ml Prefilled Syringe	Box 30

TERUMO SURFLO TEFLON IV CATHETER
ELECTRON BEAM STERILISED

Ultra-thin, silicone treated, wall introducer needle enables easier insertion and reduces patient trauma. Has a thin wall EFTE fluoroplastic catheter. Distal preview chamber provides an instantaneous and clear view of the first drop of blood in the flow. Latex free.

Code	Description	Qty
I183	Terumo Surflo Teflon IV Catheter 14G x 2" Electron Beam Sterilised (Orange)	Each
I185	Terumo Surflo Teflon IV Catheter 18G x 1 1/4" Electron Beam Sterilised (Green)	Each
I207	Terumo Surflo Teflon IV Catheter 20G x 1 1/4" Electron Beam Sterilised (Pink)	Each
SH258	Terumo Surflo Teflon IV Catheter 24G x 3/4" Electron Beam Sterilised (Yellow)	Each
I186	Terumo IV Catheter 22G x 1" Electron Beam Sterilised (Blue)	Each
SH199	Terumo Injection Plug Leur Lock Surflo SR	Pack 100

BD CATHETERS

The point of the introducing needle is cut and hone to an ultra-sharp triple-bevel that minimizes patient discomfort and tissue trauma. The gently tapered catheter tip aligns with the needle bevel to provide smooth transition from needle to catheter during insertion.

The case of the catheter is colour-coded for easy identification of the catheter gauge and has a tamper-evident seal for additional safety.

Code	Description	Qty
SH298	BD Insyte IV Catheter 14G x 1.75"	Each
I184	BD Insyte I.V. Catheter 16G x 1.16" Electron Beam Sterilised (Grey)	Each

SWANN-MORTON SCALPEL
DISPOSABLE STERILE

Swann-Morton sterile disposable scalpels, sealed individually in trays and boxed in units of 10. The latest model carries a graduated measure on the reverse of the handle. The sterile scalpels are individually packaged into a new transparent thermo formed tray providing improved product visibility and developed to assist in safe passing techniques. When peeling the packet the seal changes colour thus indicating if the integrity of the packet has been breached and assuring the user of sterility up to the point of usage.

Code	Description	Qty
SH227	Swann-Morton Scalpel Size 10 Disposable Sterile	Box 10
SH228	Swann-Morton Scalpel Size 11 Disposable Sterile	Box 10

SWANN-MORTON SURGICAL
BLADE REMOVERS

The Swann-Morton Blade Remover allows for safe and easy removal of all sizes of scalpel blade from No.3 and No.4 handles. Supplied sterile it allows the device to be included on the instrument tray within the OR and to be used at the site of the invasive procedure. The transparent nature of the material allows for 100% accountability of the blades used during the surgical procedure, each one safely encapsulated within an individual remover which may then be disposed of in an appropriate sharps bin or container.

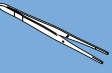

Code	Description	Qty
SH131	Swann-Morton Surgical Blade Removers	Box 50

SWANN-MORTON SCALPEL BLADES
CARBON STEEL

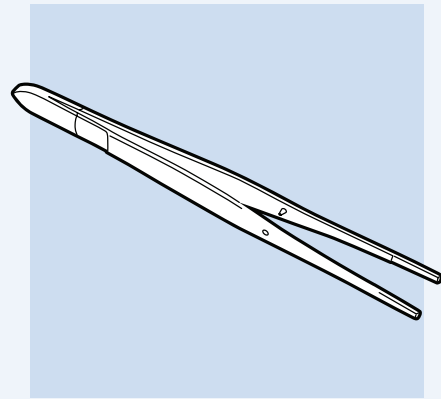

The preferred choice of many of the world's surgeons, the wide and varied range of products consists of around 65 individual blade shapes and 27 different handles. Also used extensively by other healthcare professionals such as general practitioners, nurses and paramedics along with practitioners in the associated fields of dentistry, podiatry and veterinary surgery.

SUTURE REMOVAL PACK

Consists of:

- 1 x Irish Curved Scissor
- 1 x Adson Toothed Forcep

Code	Description
FAH435	Suture Removal Kit Two Piece Pack Single Use Sterile

FINE INSTRUMENT PACK

Consists of:

- 1 x Adson Toothed Forcep
- 1 x Fine Needle Holder
- 1 x Iris Straight Sharp / Sharp Scissor

Code	Description
FAH444	Fine Instrument Pack Sterile with Derf needle holder, Iris Scissors and Adson Toothed Forcep. Three piece pack.

MINOR OPERATION PACK

Consists of:

- 1 x Mayo Needle Holder
- 1 x Adson Toothed Forcep
- 1 x Iris Scissor - Straight Sharp / Sharp
- 1 x Mosquito Forcep (Non toothed Adison Forcep)
- 1 x Sharp End Forcep

Code	Description
FAH433	Minor Operation Five Piece Pack Single Use Sterile

DEBRIDEMENT PACK

Consists of:

- 1 x Iris Curved Scissor
- 1 x Scalpel Handle
- 1 x Probe with Eye
- 1 x Mosquito Forcep
- 1 x Tissue Forcep

Code	Description

FINE SUTURE & LACERATION PACK

- Consists of:**
- 1 x Iris Curved Scissor
 - 1 x Mayo Needle Holder
 - 1 x Adson Non Toothed Forcep
 - 1 x Adson Toothed Forcep

Code	Description
FAH441	Fine Suture and Laceration Four Piece Pack Single Use Sterile

DENTAL INSTRUMENT EXAMINATION KIT

Great dental exam pack. Every instrument has a different tool on each end, this makes for very competitive pricing allowance per patient.

Consists of:

- 1 x Pair of Tweezers
- 1 x Mouth Mirror
- 1 x Probe

Code	Description
DN201	Dental Instrument Examination 3 Piece Kit

DENTAL EXAM KIT

Fantastic exam kit with 11 essential pieces. This great value kit provides dentists all over the world with proven time savings. Use for a high variety of different dental exams and procedures.

Consists of:

- 1 x Mouth Mirror
- 1 x Probe
- 1 x Pair of Tweezers
- 1 x Earloop Masks
- 1 x Tissue/Wipe
- 2 x Cotton Rolls
- 1 x Spatula
- 1 x Saliva Pump

STERILISATION CONSUMABLES

Sterilisation Products
Indicator Products

SELF SEAL STERILISATION POUCHES

High quality pouch. One side is made of Tyvek, with superior tear, puncture and microbial penetration resistance. Free-polluted printing - water based ink.

- Sterilisation Indicators: Steam & E.O.Gas
- 60GMS paper / 52UM tinted blue film.

Code	Description		Qty
DI518	Sterilisation Pouches Self Seal	57mm x 133mm	Box 200
DI667	Sterilisation Pouches Self Seal	90mm x 160mm	Box 200
DI519	Sterilisation Pouches Self Seal	90mm x 257mm	Box 200
DI520	Sterilisation Pouches Self Seal	135mm x 283mm	Box 200
DI521	Sterilisation Pouches Self Seal	190mm x 358mm	Box 200
DI607	Sterilisation Pouches Self Seal	305mm x 380mm	Box 200

SIGMA TYVEK STERILISATION ROLL

One side is made of Tyvek, with superior tear, puncture and microbial penetration resistance. For Hydrogen Peroxide system, ETO gas, Gamma, Electron-beam sterilisation. Free-polluted printing - water based ink. Triple line sealed.

- Sterilisation indicator: Plasma (H2O2)

Not suitable for steam sterilisation.

Code	Description		Qty
DI566	Sigma Tyvek Sterilisation Roll	75mm x 200m	Each
DI567	Sigma Tyvek Sterilisation Roll	100mm x 200m	Each
DI350	Sigma Tyvek Sterilisation Roll	150mm x 200m	Each

3M COMPLY STEAM INDICATOR STERILISATION AUTOCLAVE TAPE

Designed to seal packs and provide visual evidence that items have been processed. Versatile tapes adhere to all types of wraps. Chemical process indicator changes colour to a dark strip on a beige background when exposed to steam sterilisation.

Code	Description	Qty
DI522	3M Comply Steam Indicator Sterilisation Autoclave Tape 24mm x 55m	Each
DI471	3M Comply Steam Indicator Sterilisation Tape 18mm x 55m	Each

SIGMA AUTOCLAVE INDICATOR TAPE

Designed to seal medical packs, this product is made of pressure sensitive crepe paper. Tape changes to brownish black, after steam sterilisation. Easily able to distinguish between processed and unprocessed package.

Tape conforms to EN 867, ISO 11140 standards.

Code	Description	Qty
DI891	Sigma Autoclave Indicator Tape 25mm x 50m	Each

DYNAREX STERILISER CSR WRAPS

- Superior non-woven wrapping for gas and steam sterilisation
- Folds like a muslin - no springback
- Strong tear resistance
- Repellent to water, blood and saline
- Effective against water-borne bacteria.

Code	Description	Qty
DI422	Dynarex Steriliser CSR Wraps 300mm x 300mm	Pack 50
DI423	Dynarex Steriliser CSR Wraps 380mm x 380mm	Pack 50
DI442	Dynarex Steriliser CSR Wraps 500 x 500 (20 x 20)	Each

KIMBERLY-CLARK ABSORBANT TRAY LINERS

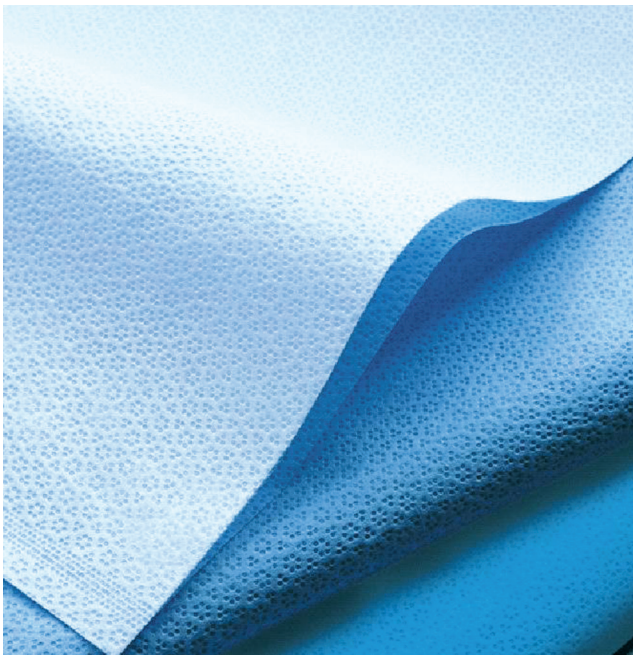

These absorbent tray liners have been specifically developed for medical applications, made from patented Hydroknit fast absorbing material. Kimberly-Clark absorbent tray liners absorb up to five times their own weight in water. High absorbency helps to wick away excessive moisture during steam sterilisation and drying of instrument sets, basins and trays.

Code	Description	Qty
G1099	Kimberly-Clark Absorbant Tray Liners Small 21.5cm x 24.5cm	Box 125
G1100	Kimberly-Clark Absorbant Tray Liners Medium 24cm x 36.5cm	Box 75

KIMBERLY-CLARK KIMGUARD 1-STEP STERILE WRAPS

Used to package linen towels, packs, gowns, light basin sets, and single instruments for sterilisation. Low-lint fabric delivers barrier and strength properties that help prevent contamination after sterilisation. Steam and EO compatible. Naturally latex-free. Non-sterile.

Code	Description	Qty
I252	Kimberly-Clark Kimguard 1-Step Sterile Wrap 91cm x 91cm	Box 144

SPRINGFLOW DISTILLER DESCALE CLEANER

It is used to remove residue and clean the stainless steel chamber of the distiller / purifier, leaving no taste or odour.

- Sulphamic and Citric Acid. Phosphate Free.
- Net Weight: 480g

Code	Description	Qty
A423	Springflow Distiller Descale and Cleaner 480g	Each

CLINIDET DETERGENT WITH PUMP

Medical and dental instrument and equipment detergent, Clinidet is a low foaming detergent specially formulated to meet the requirements of Australian & NZ standard.

- Concentrate Solution: Recommended one pump 8-10ml per 2L of water. i.e. ratio of clinidet to water 1:200ml

Not for cleaning ultrasonic units as this has an alkaline ingredient.

Code	Description	Qty
A420	Clinidet Detergent (Includes Pump) 5L	Each

CLINIDET CONCENTRATE

Medical, dental instrument and equipment detergent, Clinidet is a low foaming detergent specially formulated to meet the requirements of Australian & NZ standard.

Not for cleaning ultrasonic units as this has an alkaline ingredient.

Code	Description	Qty
A470	Clinidet 500ml (concentrate) recommended dilution 10ml (1-2 pumps) per 2L (1:200) 500ml	Each

CLINIDET SPRAY

Medical, dental instrument and equipment detergent, Clinidet is a low foaming detergent specially formulated to meet the requirements of Australian & NZ standard.

Not for cleaning ultrasonic units as this has an alkaline ingredient.

Code	Description	Qty
A477	Clinidet Spray 500ml Dispenser (1:200ml)	Each

3M COMPLY STERIGAGE STEAM CHEMICAL INTEGRATORS

As an internal pack monitor, the 3M Comply (SteriGage) Steam Chemical Integrators offer immediate, accurate and easy to read method of monitoring the sterilisation process conditions inside each pack. It can be used in all steam sterilisers. The easy-to-read moving front style has been shown to have a higher reading accuracy than colour interpretation style indicators.

Code	Description	Qty
DI439	3M Comply SteriGage Steam Chemical Integrators	Pack 100

3M ATTEST INDICATOR 1262P

3M Attest Biological indicator 132°C rated.

- Gravity Displacement Steam Sterilisers
- Blue cap, readout in 24 hours

Code	Description	Qty
DI193	3M Attest Indicator 1262P Steam	Box 25

GREEN CARD AIR REMOVAL AND PENETRATION TEST

The Green Card Air Removal & Steam Penetration Test is designed as an environmentally safe lead free method for daily monitoring of tabletop pre-vacuum steam sterilisers to detect air leaks, inadequate steam penetration and vacuum pump failures. The Green Card is specially packaged for use in small pre-vacuum steam sterilisers.

Code	Description	Qty
DI2077	Green Card Air Removal And Steam Penetration Test	Pack 15

3M ATTEST INDICATOR 1261P

- Gravity Displacement Steam Sterilisers
- Blue cap, readout in 24 hours

Code	Description	Qty
DI199	3M Attest Biological Indicator (1261P)	Box 25

3M COMPLY INDICATOR STRIPS

3M Comply Indicator Strips designed to monitor pack exposure to steam sterilization conditions. Provides a visual colour change to validate penetration of steam, perforated to adapt to fit pack size. Easy to read colour change from light to dark brown / black.

Code	Description	Qty
DI196	3M Comply Indicator Strips	Box 240

LOG BOOKS FOR RECORD KEEPING

Steriliser log records charts for use with record keeping system, offers a convenient way to record and store all pertinent information. Easy to use system saving time by reducing record keeping time, provides permanent records of sterilization process results.

Code	Description	Qty
DI194	3M Comply Log Book for Record Keeping	Each
DI270	Meditrax Tracking System Batch Recall Plus II Log Book	Each
DI272	Meditrax Tracking System Suretrax Process Indicator Labels Blue Roll 700	Each

3M COMPLY INSTRUMENT PROTECTOR SMALL SIZE

3M Comply Instrument Protectors are designed for inserting into peel pouches, reducing the potential of pouch puncture. Protecting the instrument in an open position to permit complete penetration of sterilant. Provides visual assurance that steam processing has taken place.

Code	Description	Qty
DI197	3M Comply Instrument Protector Small	Box 100

DISTILLED WATER

Distilled water is water that has many of its impurities removed through distillation. Distillation involves boiling the water and then condensing the steam into a clean container.

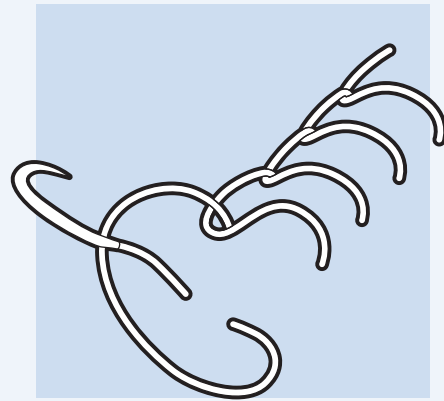

Code	Description	Qty
FAH501	Distilled Water for Autoclaves 10L	Each
FAH634	Distilled Water for Autoclaves 5L	Each

SUTURES

SUTURES

Non-Absorbable
Absorbable
Marker Pens / Rulers

ETHICON SURGICAL SILK BRAIDED

- Non-absorbable sutures.
- Slow controlled braiding for consistency of diameter
 - All strands are de-gummed before braiding for strength and consistency.

Product Characteristics	Silk Suture
Physical material	Natural protein fibre of raw silk
Construction	Braided
Absorbable / non-absorbable	Non-absorbable
Coating (if applicable)	Bees wax
Colours	Black and white
Available size range	5 through 9/0
Tensile strength (wound support)	Medium to long term
Tensile strength (tissue retention)	Indefinite
Absorption time	Non-absorbable
Frequent uses: Most body tissues for ligating and suturing; general surgery; ophthalmology and plastic surgery.	

DEMETECH SILK

Non-absorbable sutures.

Demetech's Silk suture is a non-absorbable, sterile, surgical suture composed of an organic protein called fibroin. Processed to remove the natural waxes and gums from its origin. As silk is a natural fibre, its does illicit an acute inflammatory reaction, which is followed by gradual encapsulation of the suture by fibrous connective tissue (occurring usually in 14-21 days). While Demetech's silk sutures are not considered absorbable sutures, progressive degradation of its fibers results in the gradual loss of tensile strength within the first year. DemeTech's silk sutures are indicated for use in general soft tissue approximation and / or ligation.

Product Characteristics	Demetech Silk
Physical material	Nylon 6 Polymer
Construction	Monofilament
Absorbable / Non-absorbable	Non-absorbable
Colour	Black and blue
Available size range	2 through 10/0
Tensile strength (wound support)	Long term wound support - meets USP
Tensile strength (tissue retention)	Indefinite
Absorption time	Non-absorbable
Frequent uses	General surgery: skin
Features / Benefits	Smooth passage through tissue. Excellent strength. Minimal tissue reaction. Gamma or EO sterilisation.

Code	Description	Qty
ST310	Demetech Silk 45cm Black 3/0 24mm 3/8	Box 12
ST311	Demetech Silk 45cm Black 4/0 19mm 3/8	Box 12

VELOSORB FAST

Velosorb Fast Short Term Absorbable Braid.

Frequently used in low tension paediatric skin closure and mucosa approximation in dental procedures.

Designed with patient comfort in mind:

- Pliable, easy to handle
- Does not need to be removed
- Minimal tissue drag
- Strong knot security.

Product Characteristics	Velosorb Fast
Composition	Glycolide Lactide
Structure	Braid
Suture type	Short term absorbable
Tensile strength (tissue retention)	5 Days = 50% of out of packet strength 10 Days = 20% of out of packet strength
Colour of material	Violet undyed
Available size range	1-6.0
Tensile strength (wound support)	7 - 10 days
Absorption time	40 - 50 days
Coating	Copolymer Glycolide and Lactide
Indications	Soft tissue approximation including skin and mucosa
Contra indications	Ligation Ophthalmic Neurovascular Cardiac

Amtech now has an online ordering app, which makes orders **simple**, efficient and stress-free.

Our customer service team is always on hand to help or answer any questions.

ETHICON CHROMIC GUT

Chromic Gut absorbable sutures.

Product Characteristics	Chromic Gut Suture
Physical material	Collagen derived from sheep mucosa and/or beef serosa, treated with chromic salts to slow absorption
Construction	Virtual monofilament
Absorbable / Non-absorbable	Absorbable
Coating (if applicable)	N/A
Colours	Natural – tan (dyed blue for ophthalmic surgery)
Available size range	3 through 7/0
Tensile strength (wound support)	Short to medium term
Tensile strength (tissue retention)	21-28 days
Absorption time	Absorbed in 90 days
Frequent uses	Used in tissues that do not need extended wound support and ophthalmology.

ETHICON PLAIN GUT

Plain Gut absorbable sutures.

Product Characteristics	Plain Gut Suture
Physical material	Collagen derived from sheep mucosa and/or beef serosa
Construction	Virtual monofilament
Absorbable / Non-absorbable	Absorbable
Coating (if applicable)	N/A
Colours	Natural
Available size range	1 through 6/0
Tensile strength (wound support)	Short term
Tensile strength (tissue retention)	7-10 days
Absorption time	Absorbed in 70 days
Frequent uses	Ligation of superficial vessels; subcutaneous tissues and ophthalmology.

DEMETECH CAT GUT

Code	Description	Qty
ST306	Demetech Silk Plain Cat Gut 3/0 Beige 75cm 19mm 3/8	Box 12
ST307	Demetech Silk Plain Cat Gut 4/0 Beige 75cm 19mm 3/8	Box 12
ST309	Demetech Silk Plain Cat Gut 5/0 Beige 75cm 19mm 3/8	Box 12

Demetech's Plain Catgut suture is an absorbable, sterile, surgical suture composed of highly purified connective tissue (mostly collagen) derived from either beef or sheep intestines. Due to an extremely short absorption period, Demetech's Plain Catgut elicits only minimal reaction in tissues.

Demetech's Plain Catgut will absorb more rapidly in areas where increased levels of enzymes are present. Higher percentages of collagen allow for superior tensile strength, longer absorption times, and lower reactions in vivo.

- Demetech manufactures its Chromic Catgut sutures with the highest quality collagen maintaining a composition of 97-98% of pure collagen
- Rapidly absorbed
- Tensile strength is maintained for about 10 days
- Absorption is complete within 70 days
- Ideal for tissues which heal rapidly and require minimal support.

Product Characteristics	DemeGut Catgut Plain
Physical material	Collagen – highly purified polymer
Construction	Multifilament
Absorbable / Non-absorbable	Absorbable
Colour	Beige
Available size range	2 through 6/0
Tensile strength (wound support)	Short term wound support – meets USP
Tensile strength (tissue retention)	7-10 days
Absorption time	30-60 days completely absorbed
Frequent uses	General surgery; dental
Features / Benefits	Smooth surface assures easy knot throws. Excellent knot strength, Fast and consistent absorption profile. Gamma sterilisation.

ETHICON COATED VICRYL RAPIDE BRAIDED

Coated Vicryl Rapide (polyglactin 910) absorbable sutures.

- Ethicon exclusive synthetic absorbable suture
- Provides effective short-term wound support
- Fastest absorbing synthetic absorbable suture available
- Soft, comfortable suture in sensitive tissues

Product Characteristics	Coated Vicryl Rapide Suture
Physical material	Polyglactin 910 (copolymer of glycolide and lactide)
Construction	Braided
Absorbable / Non-absorbable	Absorbable
Coating (if applicable)	50% Polyglactin 370 and 50% Calcium Stearate
Colours	Undyed beige and Dyed violet
Available size range	1 through 7/0
Tensile strength (wound support)	Short Term (7-10 days)
Tensile strength (tissue retention)	50% of original strength remains at 5 days Suture strength is lost between 10-14 days
Absorption time	Completely absorbed in 42 days
Frequent uses	Superficial soft tissue approximation of the skin and mucosa where short term wound support is required.

ETHICON COATED VICRYL

Coated VICRYL (polyglactin 910) absorbable sutures.

- Coated VICRYL suture is the most used suture in the world
- Unequalled strength during critical wound healing
- Referenced in over 2000 clinical papers.

Product Characteristics	Coated VICRYL Suture
Physical material	Polyglactin 910 (copolymer of glycolide and lactide)
Construction	Braided (Monofilament in sizes 9/0 and 10/0)
Absorbable / Non-absorbable	Absorbable
Coating (if applicable)	50% Polyglactin 370 and 50% Calcium Stearate
Colours	Undyed beige and Dyed violet
Available size range	3 through 8/0
Tensile strength (wound support)	Medium term (4 weeks)
Tensile strength (tissue retention)	75% of original strength remains at 2 weeks 50% of original strength remains at 3 weeks 25% of original strength remains at 4 weeks
Absorption time	Absorbed in 56-70 days, 63 days average
Frequent uses	General soft tissue approximation and/or ligation, including use in ophthalmic procedures.

ETHICON COATED VICRYL PLUS ANTIBACTERIAL BRAIDED

Coated VICRYL plus Antibacterial (polyglactin 910) absorbable sutures.

VICRYL Plus suture with IRGACARE® MP (triclosan) are effective against the pathogens most commonly associated with surgical site infections:

- Staphylococcus aureus
- Staphylococcus epidermidis
- MRSA / MRSE.

Product Characteristics	Coated Vicryl Plus Suture
Physical material	Polyglactin 910 (copolymer of glycolide and lactide)
Construction	Braided (Monofilament in sizes 9/0 and 10/0)
Absorbable / Non-absorbable	Absorbable
Coating (if applicable)	50% Polyglactin 370 and 50% Calcium Stearate
Colours	Undyed beige and Dyed violet
Available size range	3 through 8/0
Tensile strength (wound support)	Medium term (4 weeks)
Tensile strength (tissue retention)	75% of original strength remains at 2 weeks 50% of original strength remains at 3 weeks 25% of original strength remains at 4 weeks
Absorption time	Absorbed in 56-70 days, 63 days average
Frequent uses	General soft tissue approximation and/or ligation, including use in ophthalmic procedures.

ETHICON MONOCRYL

Absorbable Monocryl (Poliglecaprone 25) absorbable sutures.

- Unprecedented pliability – easy to handle and tie
- Smooth passage through tissue
- Monofilament with the knot security of a braid
- Consistent absorption rate with predictable decrease in tensile strength over time.

Product Characteristics	MONOCRYL Suture
Physical material	Poliglecaprone 25 (copolymer of glycolide and epsilon-caprolactone)
Construction	Monofilament
Absorbable / Non-absorbable	Absorbable
Coating (if applicable)	N/A
Colours	Undyed – beige and Dyed – violet
Available size range	2 through 6/0
Tensile strength (wound support)	Medium Term (3-4 weeks)
Tensile strength (tissue retention)	Undyed - 50-60% of original strength remains at 1 week - 20-30% of original strength remains at 2 weeks
	Dyed - 60-70% of original strength remains at 1 week - 30-40% of original strength remains at 2 weeks
Absorption Time	Completely absorbed in 91-119 days.

SYNETURE POLYSORB

Absorbable sutures. Strongest braided suture out of package strength, provide strong support during critical wound healing period. Used almost anywhere in the body where the absorption profile is acceptable.

Excellent handling characteristics:

- Snug knot and excellent knot security
- Minimal tissue drag
- Smooth coating
- Predictable absorption profile.

Product Characteristics	Polysorb Suture
Composition	Glycolide Lactide
Structure	Braid
Suture type	Mid term absorbable
Tensile strength (tissue retention)	2 Weeks = 80% of out of packet strength 3 Weeks = 30% of out of packet strength
Colour of material	Violet Undyed
Available size range	2-8.0
Tensile strength (wound support)	3 Weeks
Absorption time	56 - 70 days
Coating	Co-Polymer of Glycolide, Lactide and Calcium Stearoyl Lactate
Indications	Soft tissue approximation / ligation including ophthalmic surgery
Contra indications	Cardiovascular and neural tissue.

SYNETURE MAXON

Absorbable sutures frequently used for facial closure and long term wound support.

- Long term absorbable suture
- Clinically significant tensile strength for up to six weeks
- Stronger during the critical wound healing period of the first the week.

Product Characteristics	Maxon Suture
Composition	Glycolide Trimethylene Carbonate
Structure	Monofilament
Suture type	Long term absorbable
Tensile strength (tissue retention)	3 Weeks = 65% of out of packet strength 6 Weeks = 25% of out of packet strength
Colour of material	Green Undyed
Available size range	1-7.0
Tensile strength (wound support)	6 Weeks
Absorption time	180 Days
Coating	Nil
Indications	General soft tissue approximation/ligation. Paediatric cardiovascular tissue. Peripheral vascular surgery.
Contra indications	Adult cardiovascular and neural tissue. Ophthalmic Surgery. Microsurgery.

SYNETURE CAPROSYN

Patients can experience less discomfort during healing. Caprosyn's suture's quick absorption rate, durable polymer material and monofilament construction means smooth passage through tissue, better approximation or ligation and minimised potentiation of infection. In other words, working toward a faster recovery for your patients. Specifically, Caprosyn sutures deliver a much faster absorption rate than other USP synthetic absorbable sutures - essentially complete in 56 days.

- Can experience less discomfort
- Smooth passage
- Better approximation or ligation
- Minimised potentiation of infection
- Faster recovery.

Product Characteristics	Caprosyn Suture
Composition	Glycolide Caprolactone Trimethylene Carbonate Lactide
Structure	Monofilament
Suture type	Short term absorbable
Tensile strength (tissue retention)	5 Days = 50% of out of packet strength 10 Days = 30% of out of packet strength
Colour of material	Violet Undyed
Available size range	1 through 6.0
Tensile strength (wound support)	10 days
Absorption time	56 days
Coating	Nil
Indications	Soft tissue approximation / ligation
Contra indications	Cardiovascular and neural tissue. Ophthalmic surgery. Microsurgery.

SYNETURE BIOSYN

Biosyn monofilament absorbable sutures have the tensile strength needed for the critical wound healing period of about three weeks. Biosyn synthetic sutures are prepared from Gylcomer 631, a synthetic polyester composed of glycolide (60%), dioxanone (14%), and trimethylene carbonate (26%). These sutures are colored violet to increase visibility and are also available undyed. Biosyn sutures are indicated for use in general soft tissue approximation, subcuticular skin closure and / or ligation including use in ophthalmic surgery. The advanced extrusion process of the molecule of Gylcomer 631 gives the suture:

- Excellent initial strength
- Excellent in-vivo strength over the critical wound healing period
- Excellent knot security
- Minimal memory for handling ease.

Product Characteristics	Caprosyn Suture
Composition	Glycolide Trimethylene Carbonate and Dioxanone
Structure	Monofilament
Suture type	Mid term absorbable
Tensile strength (tissue retention)	2 Weeks = 75% of out of packet strength 3 Weeks = 40% of out of packet strength
Colour of material	Violet Undyed
Available size range	6-0 to 1
Tensile strength (wound support)	3 Weeks
Absorption time	90 - 110 days
Coating	Nil
Indications	Soft tissue approximation / ligation including ophthalmic surgery
Contra indications	Cardiovascular and neural tissue

ETHICON PDS II

- PDS II is the strongest, longest lasting monofilament absorbable suture
- Less out-of-package memory than competition
- Smooth easy passage through tissues
- Outstanding pliability for a monofilament suture.

Product Characteristics	PDS II Suture
Physical Material	Polydioxanone
Construction	Monofilament
Absorbable / Non-absorbable	Absorbable
Coating (if applicable)	N/A
Colours	Undyed clear and Dyed violet
Available size range	2 through 9/0
Tensile strength (wound support)	Long term (8 weeks)
Tensile strength (tissue retention)	70% of original strength remains at 2 weeks 50% of original strength remains at 4 weeks 25% of original strength remains at 6 weeks
Absorption time	Completely absorbed in 180-210 days
Frequent uses	Abdominal and thoracic closure, subcutaneous tissue, colon and rectal surgery, orthopaedic and plastic surgery.

ETHICON DERMABOND MINI TOPICAL SKIN ADHESIVE

Raw Material: Octylo Cyanoacrylate
Tensile strength retention in vivo. Strength of approximated, healed tissue at seven days (for topical application only), sloughs off skin in 5-10 days.

Intended for topical application only to close easily approximated skin edges of surgical incisions and thoroughly cleansed trauma induced lacerations. May be used in conjunction with but not in place of subcuticular sutures.

- Ideal for long incisions
- Provides maximum control over placement
- For maximum ease of use
- Precision tip for fine application
- Ideal for long incisions
- High viscosity formulation
- Easy to use applicator with dome tip
- Ideal for incisions longer than 25cm
- High viscosity formulation.

TAPES

TAPES

General Tapes
Advanced Tapes

MOLNLYCKE MEFIX ADHESIVE FABRIC WOUND DRESSING TAPE

Code	Description	Qty
AT502	Mefix Adhesive Fabric Dressing 10cm x 10m	Each
AT503	Mefix Adhesive Fabric Wound Dressing Tape 5cm x 10m	Each

HYPAFIX RETENTION TAPE

Hypafix is a self-adhesive, non-woven fabric sheet for secure and rapid fixation. It provides complete coverage of the entire dressing, thus reducing the risk of contamination.

Code	Description	Qty
AT512	Hypafix Retention Tape 5.0cm x 10m	Each
AT514	Hypafix Retention Tape 15cm x 10m	Each
AT515	Hypafix Retention Tape 2.5cm x 10m	Each
AT519	Hypafix Retention Tape 10cm x 10m	Each

EUROFIX DRESSING RETENTION TAPE

Eurofix is an elastic polyester net plaster which allows the highest air permeability. It is very soft, skin respectful and highly hypoallergenic. Eurofix allows a comfortable fit of the plaster to the skin and to the other particularly irregular anatomical parts of the body, ensuring the highest moisture permeability.

The special adhesive of Eurofix is not weakened by water and secretions so that the plaster, even when wet, retains its original characteristics. The silicone paper, protecting the adhesive side, is pre-cut to make separation easier; it also has a blue squared printing to help an accurate cut of the plaster in one's favourite size.

FIXOMULL STRETCH RETENTION TAPE

Fixomull Stretch is a wide-area adhesive tape, especially suitable for use on frequently mobile and highly contoured parts of the body. It is permeable to moisture and air, reducing the risk of maceration.

Code	Description	Qty
AT511	Fixomull Stretch Retention Tape 5cm x 10m	Each
AT518	Fixomull Stretch Retention Tape 10cm x 10m	Each
AT521	Fixomull Stretch Retention Tape 15cm x 10m	Each

AMTECH ZINC OXIDE

Tapes with Zinc Oxide adhesive offer excellent initial and long-term adhesion.

- Adheres strongly and reliably under strain
- Well tolerated by normal skin
- Ideal for active, mobile people
- Extra sticky adhesive
- Used for fixation of dressings of all types.

Code	Description	Qty
AT375	Amtech Zinc Oxide Tape on Spool 2.5cm x 5m	Each
AT370	Amtech Zinc Oxide Tape on Spool 1.25cm x 5m	Each

PLATINUM MICROPOROUS TAPE

Micropore tape is a product that is used as a part of wound care, especially for wounds that have compromised delicate skin or sensitive skin. This kind of wound tape is often used when treating patients who have specific skin conditions.

Code	Description	Qty
AT320	Platinum Microporous Tape 1.25cm x 10m	Each
AT321	Platinum Microporous Tape 2.5cm x 10m	Each

3M MICROPORE MICROPOROUS TAPE

3M Micropore Surgical Tape is your first choice for general taping requirements. Its hypoallergenic adhesive is gentle to sensitive and fragile skin. Very porous and breathable, it allows moisture to escape without reducing adhesion. 3M Micropore Surgical Tape is thin, soft and flexible for improved patient comfort. It tears easily to size, for quick and easy application.

Code	Description	Qty
AT322	3M Micropore Microporous Tape White 5cm x 9.1m	Each
AT328	3M Micropore Microporous Tape Tan/Flesh 2.5cm x 9.14m	Each

AEROPORE MICROPOROUS TAPE AND DISPENSER

Code	Description	Qty
AT327	Aeropore Microporous Tape and Dispenser White 2.5cm x 9.1m	Each

3M MICROFOAM TAPE

A highly conformable, elastic foam tape for compression applications, or securing dressings on challenging areas. Conforms readily with very secure adhesion to irregularly contoured sites. All direction stretch-ability provides additional comfort. Free of natural rubber latex or dry natural rubber as components in the product or packaging.

Code	Description	Qty
AT762	3M Microfoam Tape 7.5cm x 5m	Each
AT763	3M Microfoam Tape 10cm x 5m	Each

3M MEDIPORE H

Soft, gentle, comfortable tape that is easy to use and easy on the skin.

- Easy-tear perforated rolls
- Gentle, breathable to maintain skin integrity
- No paper liner on roll tapes
- Excellent cross and diagonal stretch
- Hypoallergenic and latex free
- Easy to handle - no curling or self-adhesion
- Water resistant.

Suggested Applications:

- Securing dressings and ostomy pouches to fragile skin
- When repeated taping is needed
- Anchoring post surgical dressings
- Used as retentive sheeting over gauze.

Code	Description	Qty
AT751	3M Medipore H Soft Cloth Surgical Tape 5cm x 9.14m	Each
AT752	3M Medipore H Soft Cloth Surgical Tape 7.5cm x 9.14m	Each
AT753	3M Medipore H Soft Cloth Surgical Tape 10cm x 9.14m	Each

3M KIND REMOVAL SILICONE TAPE

Comfortable application and removal along with secure adhesion makes this ideal for patients with sensitive, compromised or at risk skin, and better for all patients whose treatment requires medical tape. By minimizing skin injury upon removal, kind removal tape allows you to spend less time treating painful tape related skin injuries and have more time to take care of your patients.

Code	Description	Qty
AT642	3M Kind Removal Silicone Tape 2.5cm x 5m	Each
AT643	3M Kind Removal Silicone Tape 5cm x 5m	Each

3M UNICLOTH

Provides strong adhesion in moist and dry conditions for certain critical applications. Whether you need to secure a medical device or immobilize a body part, 3M Universal Cloth Adhesive Tape performs consistently and reliably upon initial contact.

Code	Description	Qty
AT776	3M Universal Cloth Tape 2.5cm x 5m	Each
AT777	3M Universal Cloth Tape 5cm x 9.14m	Each
AT778	3M Universal Cloth Tape 7.5cm x 5m	Each
